Warm Springs is a brand name of Post Acute Medical

LONG-TERM ACUTE CARE (LTAC)

Long-term Acute Care (LTAC) is recommended for those who require complex medical management and therapeutic care -- 24 hours a day, 7 days a week, with daily assessment of the patient by a physician.

PERSONS REQUIRING LONG-TERM ACUTE CARE ARE GENERALLY:

Admitted directly from the ICU

Medically and physically compromised with multi-system complications and/or failures that require hospitalization.

In need of extended acute care (average 25 days or more), but have the potential for recovery and may then transition home or to the next level of care.
